

## MANNOL WR-2 Universal Long Term Grease

Universal Long Term Grease WR2 (KP2K-30) is made of high-quality basic oils under use of lithium soaps. It's a multipurpose extreme pressure grease, formulated for the lubrication of rolling and sliding bearings and other lubrication places on vehicles, industrial machines, boats, construction machines and agricultural machinery, operating under the most severe conditions (water, heat, dust and other pollution). The grease offers extraordinary aging stability and excellent anticorrosion properties. These qualities in connection with the stable worked cone penetration and its excellent wear-protective characteristic allow an remarkable long-time-lubrication. The operating temperature range of Mannol Universal Long Term Grease WR2 lies between -30°C and +120°C.

### Product Characteristics:

Characteristics	Method	Unit	Value
1. Short Name	DIN 51502		KP2K-30
2. Soap			Lithium
3. Colour			Brown
4. Working Temperature		°C	-30 to 120
5. Dropping Point	GB/T4929	°C	190
6. NLGI-Class			2
7. ASTM Worked Penetration	GB/T269	1/10mm	265-295
8. Waterresistance			Maximal
