

## MANNOL EP-2 Multi-MoS2 Grease

Universal Multi-MoS2 Grease EP2 (KPF2K-30) is an extraordinary ageing stable, lithium based fat with excellent corrosion prevention qualities. The grease is made of high-quality basic oil and uses additives like molybdenum disulfide to improve emergency run qualities, corrosion prevention and pressure durability. Mannol Universal Multi-MoS2 Grease EP2 is a multipurpose grease, formulated for all lubrication places in vehicles, construction machines, agricultural machinery and mechanical engineering. This grease is particularly suitable for rolling and sliding bearings and joint lubrication with slow and/or oscillating movements. The operating temperature range of Mannol Universal Multi-MoS2 Grease EP2 lies between -30°C and +130°C.

### Product Characteristics:

Characteristics	Method	Unit	Value
1. Short Name	DIN 51502		KPF2K-30
2. Soap			Lithium
3. Colour			Black
4. Working Temperature		°C	-30 to 130
5. Dropping Point	GB/T4929	°C	190
6. NLGI-Class			2
7. ASTM Worked Penetration	GB/T269	1/10mm	265-295
